# SUMMER SPECIALS

---

## **AFFOGATO**

**10 GEL**

You ask, we deliver. Double shot of espresso poured over a scoop of sweet vanilla ice cream. Is it a drink or more like a dessert, we don't know.

## **FREDDO ESPRESSO/CAPPUCCINO**

**10/13 GEL**

Your favourite Greek coffee is here. Espresso shaken with ice (and sugar if requested). Freddo Cappuccino is a Greek version of iced latte and has a more velvety texture compared to the regular iced latte.

## **BANANA ICED LATTE**

**12 GEL**

Milk, espresso and ice = yummy. Now with banana milk. Tastes like the ice cream or milkshake from your childhood, with coffee.

## **ICED SPANISH LATTE**

**13 GEL**

The Middle Eastern twist of the classic latte. Espresso, milk and condensed milk mixed together for a sweet, balanced coffee drink.

## **ICED V60**

**15-20 GEL**

Your favourite brewing method served ice cold, yes please! We tried over 20 different recipes, but keep coming back to the one which was taught to us by one of our customers. The classic Middle Eastern iced V60. Served with a glass full of ice and offering a more full-bodied taste with milder acidity than a hot v60. Volume 300ml. The price depends on the beans used.

## **COLD BREW**

**10 GEL**

The lighter version of filter coffee, brewed with cold water. No acidity or bitterness, smooth mouthfeel, and more caffeine. Served with ice!

## **MATCHA BUMBLE**

**14 GEL**

Matcha with orange juice, it can't work, right? We thought so too until we tried the combination, and it is refreshing and tasty.

## **COCONUT MILK ICED MATCHA**

**14 GEL**

One of our customers requested this and said it's the best matcha combination you can have. We tried and agree with her, try for yourself.

## **KOMBUCHA**

**8 GEL**

We partnered up with talented Ana from Namu (founder of one of the leading healthy lifestyle blogs in Georgia) and sell her kombucha among some of her healthy vegan desserts. Multiple flavours available.
